**Brokers' Service To Go Live.**
Holder, K.
Computer Weekly, n945,-p4-
Jan. 10, 1985
ISSN: 0010-4787     LANGUAGE: ENGLISH     RECORD TYPE: ABSTRACT

ABSTRACT: Computer **Brokers** Exchange, an IBM **broker** information service
company, will go live with an **on - line** **database** . The **database** will
keep dealers **informed** on IBM prices and **available** **equipment** . The
**service** will replace the firm's current telex service.

...last year from 60,000 to more than 110,000. The TDC's 51 offices
**worldwide** are feeding trade inquiries into the **data - base** at a rate of
13,000 a month.

Apart from raw trade inquiry information, TDC-Link carries market and
**product** or sector **reports** **prepared** by its own research staff, a news
data-base, a global directory of brand names, import regulations, quota
prices, **shipping** schedules, and even real-time exchange-rate and stock
market information.

For Hong Kong companies...

...      Pine Cone Systems
     Pine Cone Systems, based in Colorado, is the leading provider of data
**warehouse** /data mart management and control solutions. Founded in 1995 by
Bill Inmon, the father of the data **warehouse** concept, Pine Cone's mission
is to bring increased value and return on investment to organization's data
**warehouse** /data mart environments by addressing the complex issues and
unique challenges of managing the data **warehouse** environment. The
company's partners include: BUSINESS OBJECTS, Brio Technology, Digital
Equipment Corporation, Evolutionary Technology...

...SYBASE. Products currently available from Pine Cone include: Data
Content Tracker for ensuring high quality **warehouse** data; Data Usage
Tracker to monitor and report on **warehouse** usage; Charge Back Manager to
accurately assign **warehouse** usage costs; and Refreshment Tracker to track
the loading of data into the data **warehouse** in an automated manner. Pine
Cone's **products** are **available** on most hardware platforms and support
Oracle, Sybase, **Informix** , DB2 and Red Brick databases . For more
information, visit our **web** site at www.pine-cone.com.
     Pine Cone Systems is a registered trademark, and Data...

...TEXT: your customers well. I recently spent the greater part of a Monday
sitting at home **waiting** for a **service** technician, who was supposed to
arrive by noon, to install an additional **phone** line. At 12:10 p.m. I
called the **carrier** and was **informed** that the tech was slated to arrive
at 1:23 p.m. (he didn't). Although I **requested** a morning appointment, the
customer service rep **entered** it as "all-day" but failed to **tell** me.

Since **carriers** have to prioritize and assign service calls in advance,
why not tell customers the expected...

**Bridge your legacy systems to the Web. (middleware links)(includes resource
  list and related article on middleware definitions) (Technology.
  Information)**
Tucker, Michael Jay
Datamation, v43, n3, p114(5)
March, 1997
ISSN: 0011-6963      LANGUAGE: English      RECORD TYPE: Fulltext; Abstract
WORD COUNT:   3040    LINE COUNT:  00259

...ABSTRACT:  legacy systems to the World Wide Web, and dozens of software
providers are offering middleware **products** designed to **make** that link.
**There** are five different kinds of middleware: object **request    brokers**
(ORB), **message** -oriented-middleware (MOM), database-middleware,
transaction-processing (TP) monitors, and remote procedure calls.

Middleware solutions...

...widest acceptance. MOM middleware can provide a single API on both legacy systems and the **Web** . ORBs have won the greatest acceptance, however. They are considered fundamental to the standard **Web** -based corporate computing architecture that is evolving. It is likely, however, that a middleware model...

  **...**  **auction method in which a potential purchaser makes a call for tenders
  available via the**  internet  **and wherein he can add suppliers to a**
  database  **to ensure they are inc**luded in the tender process

Abstract (Basic):
  ...        tenders available to a number of suppliers via the Internet or
    e-mail. The suppliers **make** an **offer** to the purchaser or a **broker** .
    The purchaser is able to update the list of suppliers in a **database**
    either by adding a supplier's details or removing a supplier that is
    not available...

    **Transportation contract negotiation system for** Internet **applications,
    accesses and reviews** database **and submits their bids for transportation
    lanes through computer** network

Abstract (Basic):
...        The system has a database to store and maintain identification
    information related to **shippers** and **carriers** , data associated with
    **requests** for quotations. The **carriers** access and review the
    **database** and **submit** their **bids** for transportation lanes through
    computer **network.**
...        c) System for communicating among **shippers** and **carriers**
        ...

...Enables reduction of labor, time and costs for both **shippers** and
    **carriers** . More frequent request for quotations (RFQs) can be conducted
    with less efforts. **Shippers** can review and analyze **submitted** **bids**
    according to their individual specifications through sorting and
    filtering techniques. **Carriers** can increase profitability, optimize
    assets, better forecast demand and improve their contract accuracy.
    **Carriers** can also compare their bids to other bids for better
    positioning of their bids with an understanding of current market
    pricing. Provides an efficient market place for **shippers** , **carriers**
    and/or other third parties like logistics providers and **freight
    forwarders** . Enables dynamic negotiation of single and multi-modal
    contracts through blind bidding or employing a quasi-reverse auction
    format. Also **shippers** can conduct bids on seasonal basis for specific
    requirement...
...The figure shows flowchart depicting general operation of the system
    from the perspective of a **shipper** .

**Scrap metal purchasing method, for use in trading in scrap or waste materials, compiles a** brokerage **database of scrap metal details from a number of seller's, allowing potential buyers access...**

Abstract (Basic):
...        The scrap metal purchasing method operates via a **brokerage** over the Internet. A seller initially **indicates** if they have any **stock** **available** for sale to the **brokerage** . The **brokerage** then requests quality information regarding this stock, before compiling a **database** of stock for sale. Access to this **database** is granted by the **brokerage** to any potential buyers. When the **brokerage** receives an order from a buyer, the **brokerage** accept the payment for stock, before arranging delivery of the scrap to the buyer, and...

PRODUCT CONFIGURATION VERIFICATION SYSTEM AND METHOD, AND PROGRAM FOR PRODUCT CONFIGURATION VERIFICATION

PUB. NO.:        2005-128924   [JP 2005128924  A]
PUBLISHED:      May 19, 2005 (20050519)
INVENTOR(s):   SATO JUNICHI
                AMANO TOSHIO
APPLICANT(s):  NEC CORP
APPL. NO.:      2003-365928   [JP 2003365928]
FILED:          October 27, 2003 (20031027)

                              ABSTRACT
... SOLUTION: In the product configuration verification system where computers 1, and 2 connected to a **network** N verify a configuration of the product in response to **shipping** request of the product from other terminal 5 on the **network** , the computers 1, and 2 stores configuration-matched data, which indicates a configuration without defect ...

...of the configuration module is represented a name used by the party from which the **shipping** request is received. The computers 1, and 2 are provided with an order management function receiving and storing order data of the product from the other terminal on the **network** , and a

configuration verification function **determining** whether or not **there** is any defect in the **product** configuration in the order **data** **based** on the configuration module name of the product in the order data and the configuration...

Claim
...   below. Customer service
  representatives and managers have access to all of the
  information in the **database** via the Administration System
  60 through a dedicated secure **Web** server 120 available
  only to authorized·personnel. The Administration System
  60 is used to produce...

...used to create

customer accounts with such information as customer name,
billing address, telephone number, **email** address, etc.
and this information is stored in the Customer **Database**
710. Such information is used by the transaction
processor 10 for billing, order notification,
promotional...invention is built on industry standard equipment
including Sun UltraSparc servers, Solaris operating
system, Apache **Web** servers, and Oracle **databases** .
Preferably,, each of the systems and sub-systems are
installed on a dedicated server running...

...number. The Customer Service sub-system 340
emails the customer again when the order is **shipped** by
the distributor or **notifies** the customer that the **product**
is not **available** and has been placed on back order.
The preceding description has been presented only to...

  Abstract:  Investigates  a  new  paradigm  in  transactional  services,
specially  tailored  for   **Internet**   purposes. This new paradigm considers
 **Internet**   transactions (called I-transactions) as a user's atomic actions
spanning  multiple  **databases**  that are present on the  **Internet** . Whereas
classical transactions are designed to cope with multiple users accessing a
particular DBMS, or...

... simultaneously  accessed  again  by  another  I-transaction.  They  are
tailored  to  be  used in the  **Internet**  environment, which so far does not
support many kinds of transactional facility, and are designed to be easily
integrated  into  existing  **Internet**  applications. This paper **proposes** a
description  of  I-transactions  and  the  constraints  related  to  their
utilization,  in  particular  from  the  security  point of  **view** . It also
outlines  the  major  differences  among  I-transactions  and  the  CORBA
Transaction  **Service** , -TIP or the X/- **OPEN** -DTP. This paper considers two
architectures  for supporting I-transactions: direct interactions among the
participants  or  **brokered**  interactions  with  the  introduction  of
transaction **brokers**  (agencies).

**TITLE: "ECS MARINE REPORTING SERVICES"**
CORPORATE SOURCE: ECS Marine, Shaw House, 27 West Way, Botley, Oxford OX2
    0JE , England
Pag: n.p.

PUBLICATION DATE: 19000000
LANGUAGE: English    SUBFILE: MRIS    (M 8012)
AVAILABILITY: ECS Marine; Shaw House, 27 West Way, Botley    ; Oxford;
    England

...ABSTRACT: commercial requirements. ECS Marine provides information,
    analysis and judgement pertinent to the needs of the **shipping**
    business. It **offers** an independent service (not being a branch of
    other **shipping** interests) producing reports for the specific and
    confidential use of the enquirer. The Services provided...

...suppliers to the Marine Industry. This data, containing records on the
    payment behaviour of many **shipping** companies is fed into our computer
    to provide a pattern of payment for each purchaser. The output is then
    made **available** to those companies who subscribe to the STAC **service**
    . (2) EDIT APPRAISAL: You name the vessel. ECS will telex a short
    **report** in 1/3 days, **indicating** movements of vessel, and beneficial
    ownership of vessel, providing general comments and a credit judgement
    ...

...credit exposures are less than $50,000. (3) STANDARD MARINE REPORTS:
    Suitable for enquiries on **shipping** companies worldwide. Ideal for
    high credit risk situations. Particular reference is made to general
    financial...

...credit requirements. Urgent enquiries can be dealt with in in hours. (4)
    CONSTANT MONITORING: Our **Data Bank** is being continuously updated,
    enabling ECS to closely monitor the affairs of designated companies.
    Within...
